## I. Overview of Process & Participants

Facilitated by Julie Pioch of Michigan State University Extension, Comstock community leaders were invited by the Township Board of Trustees to attend three meetings to develop a future vision for Comstock Township. The number of participants varied across the three meetings but each meeting had a breadth of stakeholders represented. Participants represented township

government, three school districts serving Comstock, Comstock planning commission and zoning board of appeals, the Comstock parks and recreation board, a community church, community services and seniors, Comstock library, the Comstock fire department, fulltime and contracted Comstock Township staff.

Participants explored the history of the township, reviewed current census information and engaged in a variety of activities to analyze the strengths and weaknesses of Comstock today. They worked together to articulate a vision for the future of Comstock and came up with nine broad goal statements that they would like to see come to life within the next 10 years:

- Development of a Downtown Comstock: multi-use (commercial, residential, office) between the bridge and Comstock Ave and Kings Hwy
- River trail complete, recreation on Morrow Lake
- High quality roads with bike and pedestrian paths
- Sewer and water throughout township
- Funds available for capital infrastructure (roads, sewer, water, buildings, public safety, parks) maintenance and improvements
- Collaborative efforts between schools, government and private interests working to ensure lifelong learning goals
- Quality neighborhoods with continuum of housing choices for residents of all ages
- Comstock is a choice community for business and residents because of quality public services and good reputation
- Convenient, affordable public transportation options

## Participants included:

Ann Nieuwenhuis, Comstock Township Supervisor
Anna Goodsell, Comstock Township Clerk
Bret Padgett, Comstock Township Treasurer
Jerry Amos, Comstock Township Board Trustee
Sandra Bloomfield, Comstock Township Board Trustee
Jeff Bogema, Comstock Township Board Trustee
David Burgess, Comstock Township Board Trustee
Ed Switalski, Comstock Fire and Rescue Fire Chief
Miriam Shannon, Comstock Township Planning Commission Secretary
Randy Beister, Comstock Township Planning Commission Member

+ISTOR)

HOME WORK

Jennifer Jones-Newton, Comstock Township Planning Commission Member Linda Law, Comstock Parks and Recreation Board Chairperson Myla Stuart, Comstock Public Library Director
Mary Gustas, Comstock Community Center Executive Director Chris Rundle, Gull Lake Community Schools Superintendent Todd Mora, Comstock Public Schools Superintendent Alan Lentz, Galesburg-Augusta Community Schools Interim Superintendent David Johnson, Pastor of the Kalamazoo Community Church Tom Wheat, PE with Prein & Newhof and Comstock Township Engineer Amber Leverette, Kalamazoo County Affordable Housing Winkie Kurtz, Comstock Township, Administrative Assistant

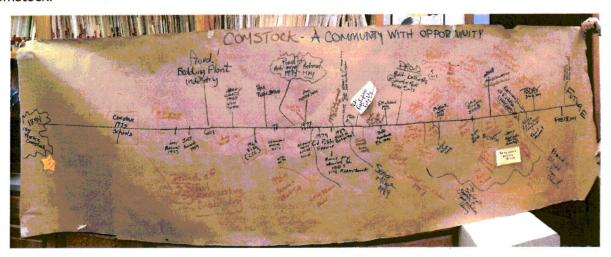

Much gratitude goes to Administrative Assistant Winkie Kurtz for taking such great notes and helping organize the sessions.

#### II. Overview of the outcomes of each session

#### A. January 21, 2014

Detailed notes from this session can be seen in Appendix B.

Nineteen community members were present at the first meeting held in the Comstock Library meeting room. Introductions were made using a timeline of history of Comstock. Participants introduced themselves and identified significant events on the timeline related to their personal history and those important to the past and present of Comstock. The dates ranged from 1831 with Horace Comstock through 2014. The activity enabled the group to discuss events that have shaped the community's built environment and its economic and social characteristics while getting to know each other before embarking on brainstorming a vision for the future of Comstock.

A brief review of present demographic information, community survey results, financial information and current planning efforts followed. The discussion and information shared can be found in the appendices.

Before exploring preferences for the future it is important to assess the present situation. To do this the group was asked to honestly assess what they felt was working in the community and conversely what was not working. In addition, they were asked to write down why things they listed were important. Explaining why the issue is important is a way to get to the core values and beliefs individuals have about the way community services and government should function. Small groups worked together then individual lists were compiled into one for the entire group to prioritize as the most important. The lists according to priority ranking are below.

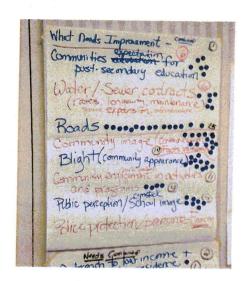

#### What's Working:

- 1. Economic Development
- 2. Governing process (township operations and ordinance enforcement) Collaboration School, Government, Business, Church
- 3. Fire Department

- 4. Community Center
- 5. Schools are Proactive
- 6. Parks

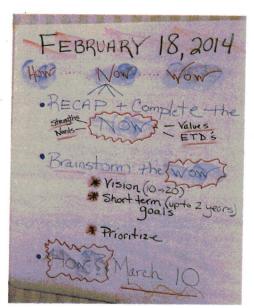

## What Needs Improvement:

- Community Image/public perception/Comstock School Image
- 2. Roads
- 3. Blight (community appearance)
- Township Center
- 5. Water/Sewer infrastructure (rates, longevity, maintenance, expansion)
- 6. Community expectations for postsecondary education
- 7. Community engagement and outreach to low income
- 8. Business attraction

### B. <u>February 18, 2014</u>

Detailed notes from this session can be found in Appendix C.

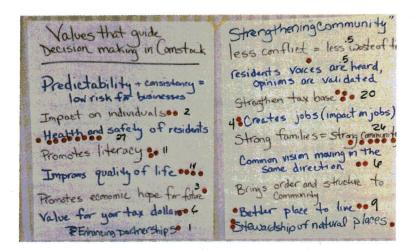

A second meeting of Comstock leadership brought continued enthusiasm to the strategic planning process. The group continued to work on defining the present conditions and perceptions in Comstock. They worked as a large group to itemize a list of events, developments and trends impacting the community. The items the group came up with underscored many of the strengths and weaknesses mentioned during the first session: contributions to the economic development strengths; references to the aging population; issues related to and impacting infrastructure needs, roads and community image. The complete list of events, developments and trends can be seen in Appendix C.

Core Values/Guiding Principles:

The group prioritized the list of values that they came up with at the first session while discussing their values and core beliefs for community decision making. The list is summarized below. The act of formulating these words into meaningful sentences should be delegated to a small group and is part of the work left unfinished from this process. Once developed, these principles can be adopted by the township board and shared with other elected and appointed boards. A set of principles adopted across groups and communicated to the greater community can be part of a communications and marketing strategy. The principles should be used to help guide leaders when making programming and spending decisions.

The prioritized list of values as developed by participants that should guide decision making in Comstock:

- Health and safety of residents
- Strong family = strong community
- Strengthen tax base
- Improve quality of life for residents
- Promote literacy
- Better place to live
- Common vision all move in same direction
- Value for your tax dollar
- Stewardship of natural places
- Promotes economic hope for the future
- Creates or has an impact on jobs

## Envisioning the future:

Finally after much work on defining the present situation in Comstock, the participants were ready to work through an activity to help them develop a common vision for the future of Comstock. A timed activity designed to have members talk one on one with each other helped the group refine their ideal visions for the future. When they reconvened as a large group only common ideas discussed across the members were captured. These ideas were carried over to the third and final session where the group would begin to brainstorm objectives and action steps to make these goals into reality. The list is as follows:

"Vision of Comstock in 2024"

- Development of a Downtown Comstock: multi-use (commercial, residential, office) between the bridge and Comstock Avenue and Kings Highway
- River Trail complete, recreation on Morrow Lake
- High quality roads with bike and pedestrian paths
- Sewer and water were needed throughout Township
- Funds available for capital infrastructure (roads, water, sewer, buildings, public safety, parks) maintenance and improvements
- Collaborative efforts between schools, government and private interests working to ensure lifelong learning goals
- Quality neighborhoods with continuum of housing choices for residents of all ages
- Comstock is a choice community for business and residents because of quality public services and good reputation
- Convenient, affordable public transportation options

## C. March 10, 2014

Detailed notes from this session can be seen in Appendix D.

The third session started out with a lesson on New Economy Principles and Placemaking. Trends show that communities who engage in placemaking and apply these land development and

planning principles are more successful and prosperous. Moreover, the State of Michigan's current community and economic development goals also embody these principles and are requiring communities who seek grants and technical assistance to have plans based on these principles. Discussion from previous sessions touched on issues related to the attraction of people, the built environment, and the natural assets of the community and the themes expressed through the visioning session revealed that the participants were definitely thinking along the same line as what

Strategic assets are: people, natural, environmental, community, and quality of life related resources that can provide a competitive advantage.

Comstock:

Population growth of 7.3% increase 2000-2010

the experts are

teaching regarding placemaking and asset development. The group engaged in lively discussion around placemaking and talent attraction possibilities in Comstock. (The slides from the presentation are attached as Appendix E).

Population growth of 7.

 River and natural areas

Bedding industry and new economy manufacturing

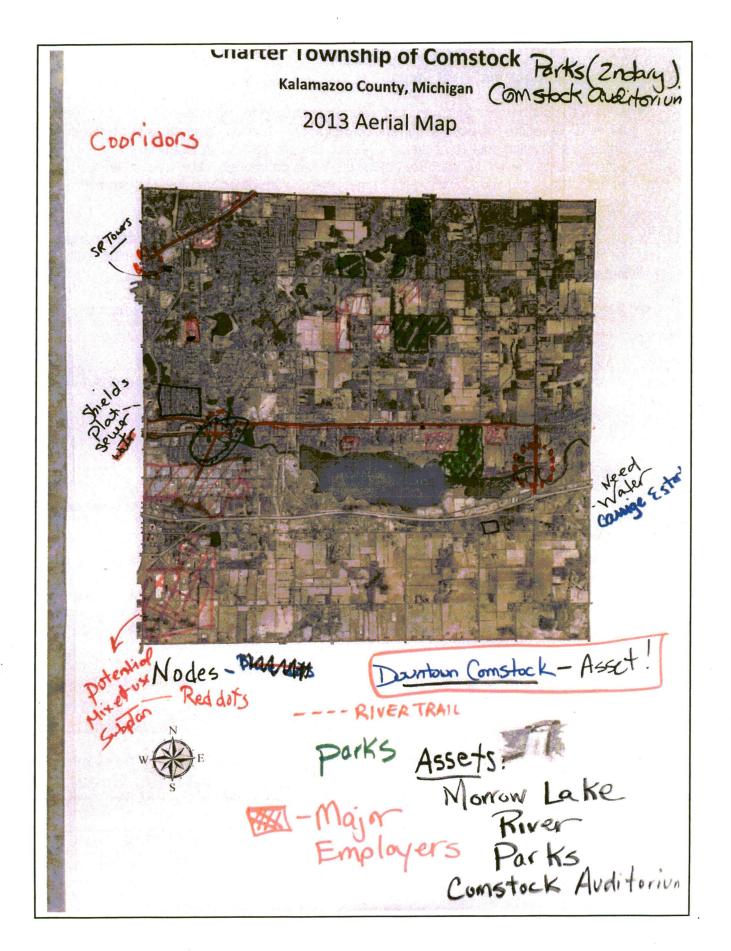

- location

Strategic Assets Mapping Activity:

Following the presentation the group identified strategic assets on a large aerial map of the township. In reference

to what was discussed in the presentation about strategic assets, the group identified specific areas (corridors and nodes) that should be priorities for development. One member pointed out that Comstock really has no "center" as defined in the strategic placemaking literature and that Kalamazoo is the nearest center. Therefore, investment should be made in transit options along strategic corridors and placemaking efforts at nodes between those corridors. In addition, the location of the Kalamazoo River Valley Trail was identified as were the specific areas where the township needs water and sewer infrastructure. This mapping exercise was significant in that it allowed the group to visualize where investment needs to be made to bring some of their goals to reality. See picture of the marked-up map on the page 8.

The final activity encouraged the group to tie everything together from all three sessions by brainstorming what needs to be done and who should make sure it happens to accomplish the goals defined by the group. The nine goals were posted around the room and participants circulated among them adding ideas to each. The outcome of this exercise became the basis for the action plan tables prepared by the facilitator in Appendix A of this report. The action planning tools are organized according to each goal identified in the visioning process. Content within the tables was taken from data and content generated by participants from all three sessions. It is the intent of the facilitator that these tables will help stimulate additional conversation and action by the township to turn the outcomes from these meetings into prioritized projects and objectives with short and medium term indicators to measure success.

### **III. Recommendations and Next Steps**

- Review the suggested objectives below and the action planning tables to move this work forward. Delegate the work to current boards and/or develop committees to tease out objectives for each goal and develop a plan to complete action steps towards accomplishing the vision. Prioritize objectives based on interest, capacity and need, establish timelines and identify ways to measure how an objective will be considered accomplished.
- Develop system to coordinate efforts of planning commission, parks and recreation board, Kalamazoo River Trail activities, capital improvement program and other planning entities impacting township.
- Assign a committee to develop guiding principles as mentioned earlier in this report.
- Invest in developing a Marketing & Communications Strategy:
  - To improve perception of competency of local government, increase communications with the residents to increase and encourage support of strategic planning efforts;
  - As a means to formalize partnerships with schools, business and community organizations;
  - To improve reputation of the Comstock area with
    - realtors
    - o investors
    - businesses
    - parks users
- Continue to seek out opportunities, partnership and community support for projects such as were mentioned by session participants:
  - Senior housing projects (of all types from single family housing rehab and multiunit developments)
  - Retrofit/demolition of old middle school
    - o Township use?
    - Commercial use?
    - o Parks and recreation use?
  - Develop a festival site/organize a festival
  - Library expansion/retrofit of township hall
- As planning process goes forward, continuously seek out additional demographic and trend information, consumer and business customer statistics as well as refer to the 2013 community survey data and dig deeper into those results to find solutions to the priority issues.

#### <u>Suggested objectives/projects to accomplish in the next one to three years:</u>

- Update Master Plan
  - Include mixed use sub area plans

- Downtown
- Recreation areas
- nodes and corridors
- Collaborate with parks and recreation board
- Update Zoning to match master plan goals
- Update Recreation Plan
  - Emphasize connectivity to KRVT, "downtown area", road system between parks and other trails
  - o Integrate recreational activities into plan
  - Collaborate with planning commission for Placemaking in targeted areas
- Develop/Update Capital Improvement Program
  - Inventory current assets (buildings and equipment)
  - Prioritize infrastructure needs, maintenance and replacement
    - Short, medium long-term
    - Prioritize expansion and improvement to support strategic placemaking efforts
      - Roads
      - Water/Sewer expansion
      - Bike paths along roads (and connection to trails)
      - Sidewalks and pedestrian access
  - CIP to include sustainable funding strategies for capital improvements
    - General fund contingency strategy
    - Bonds
    - Millage
    - TIF
- Develop community engagement, outreach and communications plans
  - Residents
  - Realtors
  - Schools
  - Business
  - Adopt blight ordinance and fund enforcement
  - Adopt Rental ordinance and fund enforcement

#### In Conclusion:

The goals through this process provide Comstock Township with a vision for the future. There are many ways to obtain this preferred future and the first step was accomplished by defining it. The following appendices provide documentation of the process and background information to assist Comstock community leaders develop measurable and realistic objectives to reach their goals for the future.

# CHARTER TOWNSHIP OF COMSTOCK STRATEGIC PLAN COMMITTEE

"Comstock – A Community With Opportunity"

January 21, 2014 Meeting Notes 4:00 – 8:00 PM

Comstock Library Meeting Room

## Meeting Participants:

Ann Nieuwenhuis, Comstock Township Supervisor Anna Goodsell, Comstock Township Clerk Bret Padgett, Comstock Township Treasurer Jerry Amos, Comstock Township Board Trustee Sandra Bloomfield, Comstock Township Board Trustee Jeff Bogema, Comstock Township Board Trustee David Burgess, Comstock Township Board Trustee Ed Switalski, Comstock Fire and Rescue Fire Chief Miriam Shannon, Comstock Township Planning Commission Secretary Randy Beister, Comstock Township Planning Commission Member Jennifer Jones-Newton, Comstock Township Planning Commission Member Linda Law, Comstock Parks and Recreation Board Chairperson Myla Stuart, Comstock Public Library Interim Director Mary Gustas, Comstock Community Center Executive Director Chris Rundle, Gull Lake Community Schools Superintendent Todd Mora, Comstock Public Schools Superintendent Alan Lentz, Galesburg-Augusta Community Schools Interim Superintendent David Johnson, Pastor of the Kalamazoo Community Church Tom Wheat, PE with Prein & Newhof and Comstock Township Engineer

## Meeting Ground Rules:

Participate Fully
Keep an Open Mind
Respect Each Other
One Person at a Time Speak
Expect Unfinished Business
Agree to Disagree but don't be Disagreeable
Have Fun

#### Session Agenda:

- A. History and introductions timeline activity
- B. Review The Present
  - a. Census
  - b. Survey
  - c. Finance
  - d. Plans
- C. Activities What's Working
- D. What's Not Working
- E. Values that guide decision making

### A. History and Introductions

Julie displayed the "Comstock – A Community with Opportunity" timeline everyone had marked up prior to the meeting and asked that everyone introduce themselves and identify the item(s) they may have put on the "timeline". All attendees and participants introduced themselves, gave brief overviews of their background, and highlighted and discussed various items that were written on the timeline, beginning in 1831 with Horace Comstock through today and beyond.

## B. Review of Present Conditions/demographics and plans:

Julie began the discussion of the Citizen Survey as well as review of the 2010 Census information handout. Everyone reviewed various aspects of the Census such as minorities, males, families, etc. within Comstock Township. These were compared to the sample groups; County-wide, Kalamazoo Township, City of Kalamazoo, Charleston Township, and Climax Townships.

The group was ask to review the data for anything that might be of particular interest or importance. Data specifically noted were:

- Age 25 Years and older with no high school diploma or G.E.D.
- Percent of those at the poverty level.
- Those with lower level of satisfaction on the citizen survey were the lower level of education.
- Keep in mind the possible reading level when addressing these issues
- Veterans; a large percentage in the Township is more than the percentage County-wide
  - \* May reflect Comstock's residents dedication and historical service to its Country.
  - \* Location to nearby base
- Economic base original in Township was General Motors and paper companies vs. now are the generations still here however unemployed/undereducated and/or have no trades.
- Housing characteristics of 91% owner occupied homes and of those 41%+
   were constructed prior to 1970 which compares to 48%+ County-wide

Discussion regarding housing continued and a question was asked as to how many homes in Comstock were on sewer and/or septic, or on city water/well. It was indicated that this data could be researched should the committee request it. The number of homes using water/sewer could be obtained by the City of Kalamazoo as they invoice Township residents for the use. The Township also has GIS which has a layer that shows the Township where sewer and water is currently available to serve those currently not using the systems. It was also mentioned that the Township has information of areas within the Township which are showing indications of septic system issues where sewer currently is not available.

Ann Nieuwenhuis discussed the current condition of the Township's roads and the PASER rating provided to the Township by the Kalamazoo County Road Commission (KCRC) and that many of the Township's roads are falling to an unrepairable condition where they would need to be rebuilt. She specifically noted the Shields plat area as one of the worst roads.

Julie then asked the participants what stood out as important during their review of the Citizen Survey Comments. Items noted were:

- To address the blight issue
- Ordinance enforcement be more consistent and stricter
  - \*change possibly from more enforcement by complaint driven
  - \*now enforced every 45 days/not compliant driven

Ms. Pioch then asked about the Fire Operating and Capital Budget as well as the Library; which the Township Treasurer responded those were funded by special assessments. Ms. Pioch, who had briefly reviewed the Townships Parks and Recreation five year plan as well as the Planning Commissions land use plan, recommended that the group review this information.

## C. What's Working

She then separated everyone into three groups. Each group was asked each participant to think about "What's Working" – Assets and Strengths and list them in their respective groups. Below are the results of each group:

#### Group 1

| 1.  | Economic Development                                      | 6 |
|-----|---|---|
| 2.  | Schools – Proactive                                       | 3 |
| 3.  | Zoning Rules  |   |
| 4.  | Government Sharing Resources                              |   |
| 5.  | Protecting Parks and Natural Space                        | 1 |
| 6.  | Richmond Scholarship Fund                                 |   |
| 7.  | Emergency Services  |   |
| 8.  | Collaboration – Schools, Churches, Government, Businesses | 5 |
| 9.  | Township government more open/transparent                 | 1 |
| 10. | Senior millage  |   |
| 11. | Redevelopment-Midlink, K-Mart                             | 1 |
| 12. | Great Neighborhoods                                       |   |
| 13. | Community Center  | 3 |
| 14. | Library   | 1 |
| 15. | Perception of unfriendly ordinances to business           |   |

#### Group 2

|    | Fire Department          |   | 4 |
|----|--------------------------|---|---|
| 2. | Learning Center          |   |   |
| 3. | Governing Process        |   | 4 |
| 4. | Community is growing     |   |   |
| 5. | Schools working together |   |   |
| 6. | Increased Business       |   | 4 |
| 7. | Increased population     |   |   |
| 8. | Churches work together   |   | 2 |
| 9. | Parks                    | * | 1 |

| 1.  | Ordinance Enforcement       |  |   | 1 |
|-----|-----------------------------|--|---|---|
| 2.  | Administration              |  |   | 2 |
| 3.  | Approachable-government     |  |   | 1 |
| 4.  | New Business                |  |   | 5 |
| 5.  | Fire Department             |  |   | 4 |
| 6.  | Parks                       |  | • | 2 |
| 7.  | Community Pride-Involvement |  |   |   |
| 8.  | Metro Bus                   |  |   |   |
| 9.  | Best With What We Have      |  |   |   |
| 10. | Collaborative Efforts       |  |   | 3 |
| 11. | Schools                     |  |   | 1 |
|     |                             |  |   |   |

After each group listed what they felt were the Township's assets/strengths, Julie then asked each member of the group to place "dots" by those items on their list that were most important to them. Those "dots" were tallied and have been indicated above in "red" next to each item.

Ms. Pioch then assisted each groups, as a whole, with compiling the results of each of the three groups results based on the "dots". Below is the results of the combined "What's Working" chart, with the top choices receiving at least one dot from each group.

## Combined-What's Working:

- Economic Development
- Governing process (township operations)
- Collaboration School, Government, Business, Church
- Fire Department
- Community Center
- Schools are Proactive
- Protecting Parks and Natural Spaces (Parks)
- Ordinance Enforcement
- Library

## D. What's not working/needs improvement

After each of these were discussed in various detail, the group was then requested to address "What Needs Improvement/Not Working". Below are the results from each of the groups:

#### Group 1

- 1. Lack of community engagement
- 2. Low Income Outreach

As done previously, each group was then asked to list which of those items on these lists were most important by placing a "dot" next to each. Those "dots" were tallied and have been indicated in "Green" above next to each item.

The group was then asked by Julie to now, review their list of the top items "Not Working" indicated by the number of dots and indicated, and list them. Below is their compiled list:

Appendix B

## **Combined-What Needs Improvement:**

| <ul> <li>Community expectations for post-secondary education</li> <li>Water/Sewer Contracts (rates, longevity, maintenance, expansion</li> </ul> | 6  |
|--|----|
| (service), infrastructure))  | 6  |
| - Roads  | 15 |
| - Community image  | 14 |
| - Blight (community appearance)  | 11 |
| - Community Engagement   | 4  |
| - Public perception/Comstock School image  | 7  |
| - Police Protection/Presence in the Community/Finance  |    |
| - Outreach to low income and minority residence  | 1  |
| - More sidewalks and maintenance   | _  |
| - Drug control/enforcement   | 1  |
| <ul> <li>Model of ordinance enforcement (warnings highlighted, better<br/>explaining, coach??)</li> </ul>  | -  |
| - Process/education about how property "assessments" are done  |    |
| - Ending generational proverty   |    |
| - Township-wide public transportion  |    |
| - Recycling options  |    |
| - Township Center  | 7  |
| - Business attraction  | 3  |
| - Sprawl prevention  | 1  |
| <ul> <li>Communication of sign ordnances (perception sign ord. is<br/>Unfriendly to business)</li> </ul>   | •  |
| e.   |    |

This consolidated list was then evaluated by the group by everyone placing a "dot" next to those they felt were most important. The tabulation of those dots are indicated in **"blue"** next to each of the items.

## E. Values that guide decision making

Prior to closing of the meeting, the entire group was asked in round robin fashion to list what they wrote in the second column of their whats working and whats not working worksheets under the column that asked "why is that important?" This list represents the "values" that people in the room think are important when making decisions for Comstock. We will elaborate and prioritize this at the next meeting. The list is as follows:

#### Value:

- Predictability (consistency = low risk for business)
- Impact on individuals
- Health and safety of residents
- Promote literacy
- Improved quality of life for residents
- Economic hope for future
- Value for your tax dollar
- Encourage support and enables growth
- Voices heard, opinions, and people validated

- Strengthen tax base
- Jobs, jobs, jobs
- Strong family = strong community
- Community pride
- Common vision moves all in same direction
- Brings order and structure to community
- Better place to live
- Less conflict = less waste of time

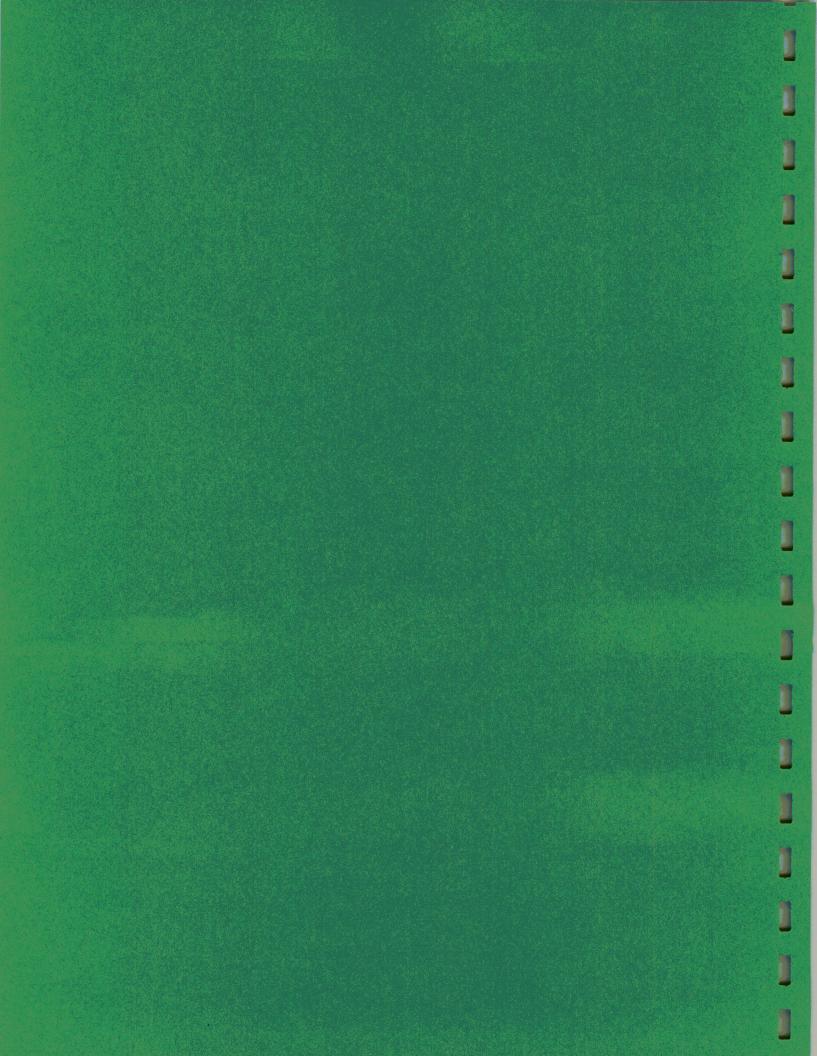

## Items placed On the Horizon:

- School of Choice
- Sheriff Won't Deputies/work with surrounding communities

Appendix C Notes from February 17, 2014

1

# CHARTER TOWNSHIP OF COMSTOCK STRATEGIC PLAN COMMITTEE "Comstock – A Community with Opportunity" February 17, 2014 – Meeting Notes Comstock Township Board Meeting Room

#### Meeting Participants:

Ann Nieuwenhuis, Comstock Township Supervisor
Anna Goodsell, Comstock Township Clerk
Bret Padgett, Comstock Township Treasurer (arrived later)
Jerry Amos, Comstock Township Board Trustee
Sandra Bloomfield, Comstock Township Board Trustee
Jeff Bogema, Comstock Township Board Trustee
David Burgess, Comstock Township Board Trustee
Ed Switalski, Comstock Fire and Rescue Fire Chief
Miriam Shannon, Comstock Township Planning Commission Secretary
Randy Beister, Comstock Township Planning Commission Member
Jennifer Jones-Newton, Comstock Township Planning Commission
Member (arrived later)
Linda Law, Comstock Parks and Recreation Board Chairperson
Myla Stuart, Comstock Public Library Interim Director

Myla Stuart, Comstock Parks and Recreation Board Chairperson
Myla Stuart, Comstock Public Library Interim Director
Mary Gustas, Comstock Community Center Executive Director
Chris Rundle, Gull Lake Community Schools Superintendent (arrived later)
Tom Wheat, PE with Prein & Newhof and Comstock Township Engineer
Julie Pioch, MSU Extension Greening Michigan Institute Government and
Public Policy Educator

Amber Leverette, Kalamazoo County Affordable Housing (arrived later)

#### Session Agenda:

- A. Review & Introductions
- B. Values that Guide to the Decision Making
- C. What's on the Horizon
- D. Develop a Vision for the future

#### A. Review and Introductions

Session 2 began with a brief overview of the last session. The group went through the large time line everyone built during Session 1 and asked if anyone had anything they thought should be added. No one had any additions they wanted to make. Session 1 plan outline was recapped and highlighted as well as the "Ground Rules".

Items added to the plans item under "The Present" were the Recreation Plan and the Master Plan and how important tool those documents are during a strategic planning process.

Starting where we left off at "The Future" we are going to review and talk about "What is on the Horizon" and the Values that Guide Decision Making. Last time we discussed the "Now" of what is happening and tonight we will finish the "Now" and start to work on the "How".

As noted on the illustration above the "Now" will represent the Township's strength's and needs as well as values and Events, trends and developments. Secondly we are going to brainstorm the "Wow":

- Vision (10 + 20 yrs)
- Short term goals (up to 2 years)
- Prioritize

The "How" or third segment discussions will continue at the March 10, 2014 session.

Julie ask the participants to start to think of things that may have been on our minds as she reviewed the two items the last time we talked. Those items were:

- School of Choice
- Sheriff won't Deputize (won't share services)

After some discussion, an item was added to the list above which was:

- Staying abreast of trends, community issues - being pro-active

Discussion then switched to working on events, trends, and developments happening "now" around Comstock. From the previous Worksheet #3 handed out to the group, you were asked to list what events, developments and trends are taking shape now that may affect the future of Comstock Township. The list below was a compilation of those worksheets and discussions from the group.

#### Events, Trends, Developments

- Midlink Business Park (MBP) coming back on the Tax Roll in 2015 (clarification by the typist—this would be the Renaissance Zone) and growth within the MBP
- Personal Property Tax Decrease (added later in the discussion)
- Environmental cleanup progress
- Commercial growth on Gull Road
- Commercial growth on 27<sup>th</sup> St extension
- Benteler/Bell's Brewery expanding
- 35<sup>th</sup> Street and I-94 Redevelopment
- Aging Population
- Variety of Green Space/Greenspace conservation
- Sisters of St Joe of the Nazareen (clarified) (was noted as Nazareth Farms However it was the Manitou Arbor Eccovillage possible sale)
- Awareness of needs of infrastructure
- Inadequate funding of roads

- KVRT Expansion
- Expansion of Metro Transit to Galesburg
- Trend of government looking to work together for efficiencies
- Reduced law enforcement possible trend to be more crime; drug manufacturing, meth labs
  - \* Spiral of blight and property value and quality of life
- MSHD Loans in CDP's interest free up to \$35,000

Mary Gustas then explained about the job fair recently at the Bell's Brewery and how successful it was and also mentioned that an employment agency comes once a month to the Community Center to assist applicants.

- Kalamazoo County Water and Dog Park Increases in new traffic and families
- Moving drive entrance to line up at River Oaks and 33rd St, MDOT agree to light
- People who work in Comstock don't live here
  - \*Realtor partnerships and marketing
- Marketing efforts are being discussed

Julie then reviewed the last session discussion on working on the strengths. They were:

What are the Most Important Issues What Needs Improvement

The higher priority items (6 and above "dots") under the "What Needs Improvement" were (in order by group selection) were focused on:

- 9. Roads
- 10. Community Image
- 11. Blight (community appearance)
- 12. Public Perception/Comstock School Image
- 13. Township Center
- 14. Water/Sewer Contracts (rates, longevity, maintenance, expansion (service), infrastructure)
- 7. Community expectations for post-secondary education

Why were these important? They help to guide decision making and to have a statement of values which Julie then re-reviewed the "Values that guide the Decision Making" list (with some minor modifications).

#### Values that Guide Decision Making in Comstock

| - Predictability + consistency = low risk |    |
|---|----|
| - Impact on individuals                   | 2  |
| - Health and safety of residents          | 27 |
| - Promote literacy                        | 11 |
| - Improves quality of life for residents  | 14 |
| - Promotes economic hope for future       | 3  |
| - Value for your tax dollar               | 6  |

| <ul> <li>Encourage support and enable growth</li> <li>Residents voices heard, opinions, and people validated</li> <li>Strengthen tax base</li> <li>Creates jobs (impact on jobs)</li> <li>Strong family = strong community</li> </ul> | .5<br>20<br>2<br>26 |
|---|---------------------|
| - Community pride   |                     |
| - Common vision – moves all in same direction   | 6                   |
| - Brings order and structure to community   |                     |
| - Better place to live  | 9                   |
| - Less conflict = less waste of time  | .5                  |
| Additions to this list form the previous one are:   |                     |
| - Stewardship of Natural Places   | 5                   |
| - Strengthening "Community"   |                     |
| - Enhancing partnerships  | 1                   |

From this newly compiled list the participants were asked to come up to the board and place a 5, 3 or 1 next to those values they felt were the most important. Once everyone had a chance to place their numbers on the board, the results were tallied and the totals were placed next to each. Those numbers are shown to the right of the values. Some, as in the first session, did not receive any "dots".

Julie then asked about the homework project, Worksheet #4: The Future Comstock Township.... which some of the participants had completed. Below is a copy of that worksheet:

### Worksheet #4: The future Comstock Township...

You and your family have been called away from the community for 10 years. You have returned to Comstock on January 21, 2024 (OMG!). You are elated to find a place that fits your vision as a community leader of an ideal community. Everything you see – social, political, economic, environment and government – is in perfect order.

Using the space below, describe four things that you see (or hear or experience) that please you the most. Make your statements as specific and descriptive as possible. You will be reading your statements to a few other people in the room and listening to what they have to say. You will have a chance to modify your statements as you listen to the comments from others and then we will share as a group to fine tune a vision for the future of Comstock.

Julie referred to the chart entitled "Questions to "Spur" Your Thinking in conjunction with Worksheet #4. Ten years from now:

- What has been accomplished?
- What services have been provided?
- What positive changes have taken place?

- What are people saying ....about township government
- What are relationships like?
- How are people behaving differently?

Ms. Pioch then begin to explain the next process that the participants would be divided up into pairs. Each pair will talk with one another, only one at a time, and then the process would be reversed for that pair. The conversations are for four (4) minutes, for each. The lesson is to listen to common thoughts and then write them down. After the first pairs have completed their four minutes, those pairs would be switched off with another person from one of the other pairs. When the pairs switch off, the time would be decreased in progression; three minutes, two minutes, etc.

After the pairs were completed, those common thoughts were presented and written down for discussion. Julie then proceeded to fill in the next exercise:

#### Comstock In 2024 -

- 1. "Comstock Center" A downtown area with multi-use development near River including a grocery, restaurants, with residential-along River St., between the bridge and Comstock Avenue, King Highway
- 2. Municipal water and sewer throughout Township
- 3. River trail is complete and thriving. Morrow is active with recreational activities
- 4. Pedestrians, bikers and cars safety sharing major thoroughfares.
- 5. Increased homeownership—well maintained properties.
- 6. Residents have pride in their neighborhood and take responsibility to maintain them, units are occupied.
- 7. Businesses are thriving and employing our local people.
- 8. Policies are in place that support homeownership and support quality rentals.
- 9. Comstock has a strong community identify, strong public services.
- 10. Quality affordable places for seniors to live (containment of options).
- 11. Convenient, affordable public transportation option.
- 12. Government and schools are well respected and working together to accomplish and ensure lifelong learning goals.
- 13. Roads are in mint condition and adequate money is set aside for upkeep.

Items 1, 2 and 3 were noted to be or have "connected/connectivity".

The group was then asked to review the list once more and given an opportunity to add anything further—nothing further was added.

These are goals that were listed, now Julie asked the group to be "the Township Board" and image it is February, 2016—2 years from now and you are at (Examples; MTA Annual meeting, etc.) and you are at a dull dinner until the conversation is turned to you and the "very important person at your table says to you"....We have heard about your community ....you beem and say ....?

"What is one your list" that you tell this person.....

Each participant was asked to list their community's accomplishments in five words or less each of the goals you accomplished in the last two years. Each participant brought up their accomplished goals and placed them under various categories. After numerous refining and defining, the final list was developed below:

#### Parks and Recreation

- Old High School demolition for new park space and cemetery space
- Parks system honored state-wide
- Major grant for Merrill Park-no match or major benefactor
- Enbridge completed work and went home
- Kalamazoo River is clean
- Boat launch and park at 35<sup>th</sup> Street
- River Trail complete and busy

#### Roads

- Our roads are 1005 improved
- New technology tested for sustainable road construction
- All local roads rated six or higher
- Road improvement special assessment funding

#### Water/Sewer (Shields Plat)

- Grant for water and sewer and roads
- Water and sewer and roads

#### **Government Services**

- New library addition
- Comstock Township awarded MTA Township of Excellence
- Ordinance list made and implemented
- 75 dangerous buildings demolished and new usage for each property

#### **Public Safety**

- County-wide Road Patrol millage passed
- Kalamazoo County Unified Fire Dispatch
- 1.5 Million Fire Station with no millage
- Drugs eradicated from Township

#### **Community Identity**

- Everyone here still involved (strategic planning group)
- Comstock Plant Growers Festival
- Realtors support housing sales

#### **Schools**

- Scholarship funded in full
- Increased school population
- Graduation rate improved by 50%
- High school graduation rate is @ 90%
- College Learning Culture
- Parent involvement welcomed
- Counselors involved with students/families
- Share services Early college
- Non-Public partnership
- School of choice

#### **Comstock Center**

- Downtown has become family destination
- Downtown development plan coming together
- Economic Development
- Ground breaking for new automotive assembly facility (Toyota/Ford mentioned)

#### Stand Alone Item

Ground breaking occurred in 2015
 Senior Housing Projects
 60 HUD Apartments finished

Ms. Pioch then summarized this list and asked the group to look at how does this list compare to the list of "Whats working" and "Whats Not Working" and the strengths list were compared to the list of priorities. Since the next session involved prioritizing and setting of goals Julie suggested we close the meeting and begin this at the next session on March 10.

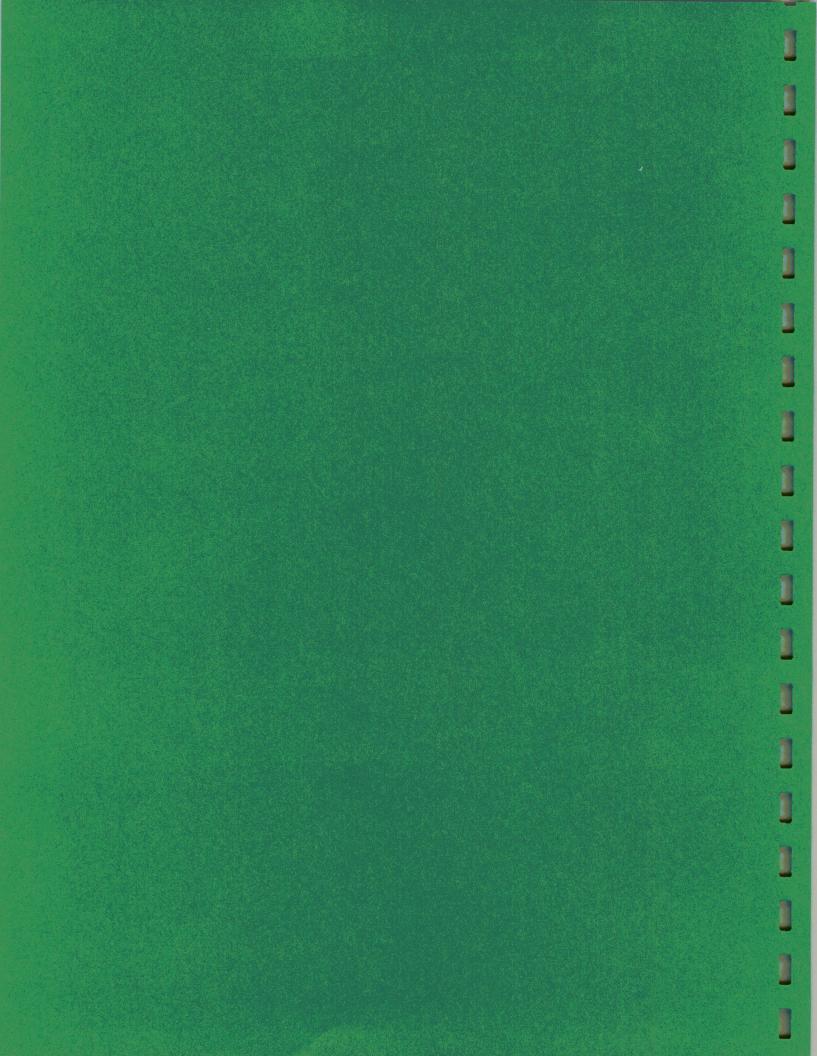

The meeting ended at approximately 8:00 p.m.

## CHARTER TOWNSHIP OF COMSTOCK STRATEGIC PLAN COMMITTEE "Comstock – A Community With Opportunity"

March 10, 2014 – Meeting Notes East Fire Hall

#### Committee Attendees and Participants:

Ann Nieuwenhuis, Comstock Township Supervisor
Anna Goodsell, Comstock Township Clerk
Bret Padgett, Comstock Township Treasurer (arrived later)
Jerry Amos, Comstock Township Board Trustee
Sandra Bloomfield, Comstock Township Board Trustee
Jeff Bogema, Comstock Township Board Trustee
David Burgess, Comstock Township Board Trustee
Ed Switalski, Comstock Township Board Trustee
Ed Switalski, Comstock Fire and Rescue Fire Chief (arrived later)
Randy Beister, Comstock Township Planning Commission Member
Jennifer Jones-Newton, Comstock Township Planning Commission
Member (arrived later)

Linda Law, Comstock Parks and Recreation Board Chairperson
Mary Gustas, Comstock Community Center Executive Director (arrived later)
Tom Wheat, PE with Prein & Newhof and Comstock Township Engineer
Julie Pioch, MSU Extension Greening Michigan Institute Government and
Public Policy Educator

The third session of the Strategic Plan Committee began at 4:03 p.m. by Julie Pioch.

Julie began with a brief overview of the evening's goal. During this overview, informational material was handed out. Included in the material was a handout entitled "Vision of Comstock in 2024". This list, as explained by Ms. Pioch, was a compilation of feedback from Session Two which the Committee had noted as their vision for the future of Comstock. Below is the list from that handout:

- Comstock Center: Multi use development near River grocery, ice cream residential-along River Street, between the bridge and Comstock Avenue, King Highway
- Municipal water and sewer throughout Township
- River Rail is complete and thriving. Morrow is active with recreational activities
- Pedestrians, bikers and cars safety sharing major thoroughfares.
- Increased homeownership—well maintained properties.
- Residents have pride in their neighborhood and take responsibility to maintain them, units are occupied.
- Businesses are thriving and employing our local people.
- Policies are in place that support homeownership and support quality rentals.
- Comstock has a strong community identify, strong public services.
- Quality affordable places for seniors to live (containment of options).
- Convenient, affordable public transportation option.

- Government and schools are well respected and working together to accomplish and ensure lifelong learning goals.
- Roads are in mint condition and adequate money is set aside for upkeep.

From this list, Julie compiled a summarized list of nine areas which she felt the Committee were the most strong in focusing their review. Those were:

- Development of a Downtown Comstock: multi-use (commercial, residential, office) between the bridge and Comstock Avenue and Kings Highway
- River Trail complete, recreation on Morrow Lake
- High quality roads with bike and pedestrian paths
- Sewer and water throughout Township
- Funds available for capital infrastructure (roads, water, sewer, buildings, public safety, parks) maintenance and improvements
- Collaborative efforts between schools, government and private interests working to ensure lifelong learning goals
- Quality neighborhoods with continuum of housing choices for residents of all ages
- Comstock is a choice community for business and residents because of quality public services and good reputation
- Convenient, affordable public transportation options

Ann Nieuwenhuis addressed the group and suggested we could begin by earmarking various locations along the Kalamazoo River Valley Trail and utilize that asset as a reference for place making. Ms. Pioch thought that was a great idea and we would come back to that a little later.

Julie then began her Powerpoint presentation on "People, Places & Placemaking". Examples of placemaking were reviewed in the presentation, as well as highlighted in another handout distributed to the committee members entitled "Why the Economics of "Place" Matters. She also indicated how it is important to partner with available local, county, state and federal agencies. She encouraged the use of an estimated fifteen sources such as MDOT, MDEQ, and so on, and working with these various resources which could possibly assist as a reference source for place making.

There are four types of place making; Standard, Strategic, Creative, and Tactical. Building on existing assets toward creating new options by having appropriate placemaking strategies/plans to targeted populations to quality places that people want to live, work, play and learn. Keeping in mind utilizing the recent Citizen Survey conducted by the Township.

Additional handouts received during her discussion were excerpts from the Survey, specifically the 2013 Core Scores and the Planning & Budget. As we look at place making, we should look at the suggested target population age example and compare it to the results of the Comstock Survey and note the areas of importance to those target populations. Then review your target population to your Planning and Budget Survey data to view what Comstock residents feel the Township should focus its efforts on.

Next she reviewed the slide "comparing the Old and New Economy Chart" which identifies places that have been prosperous to that that have not fared well. Examples noted were in Education and that it is no longer driven by the blue collar work force and therefore education levels are

down—this data for Comstock compared to statewide data from the Census indicates this in the Survey.

In addition, Julie emphasized that within each region there must be some high quality urban places where people want to be and live and that she believed Michigan had many centers of commerce and culture.

Going back to the 2013 Core Scores from the Citizen Survey, of particular note was the graphs and "bubble" areas from the Survey. Ms. Pioch reviewed the high impact areas suggesting improving Township Government" by developing a management improvement plan--and areas that the Township need not necessarily focus on such as the Fire Department--which the residents are confident with at this time. Also noted was that roads are need and the Survey supported that.

The mapping exercise was to work on the four areas noted previously; standard, strategic, etc. Two maps were put up for the group's next project. These maps were 2013 Aerials of the entire Township'. Julie asked us to look at various areas and think about the form you want there. Referring back to the presentation material, keeping in mind to streamline your corridor:

- Center
- Node(s)

Various members from the group participated in identifying some of the following areas:

- Corridors
- Nodes
- Kalamazoo River Valley Trail
- Water and Sewer needs areas

Discussion continued regarding these areas throughout the Township as well as the Midlink Business Park area and the possible need for a larger park and/or multiple housing/apartments in the Township as well as in that area near the Sprinkle Road/N Avenue-Kilgore Road area which covers four municipalities; City of Portage, Pavilion Township, City of Kalamazoo, and Comstock Township.

Julie then divided the group up into three's and work on the nine strategic plan areas listed above. Each group was to indicate, on each, what work needs to be done to accomplish this strategy, and who might assist in reaching this goal. As each group completed one strategy they were asked to move on to the next, until each group had an opportunity to participate on all nine areas. Below is a summary of this group activity:

Item #1 – Development of a Downtown Comstock: multi-use (commercial, residential, office) between the bridge and Comstock Avenue and King Highway

| What       | Who                      | ** |
|------------|--------------------------|----|
| New Zoning | Township Board, Planning |    |
| _          | Commission               |    |

| Financial Plan  | Township Board, Downtown<br>Development Authority, State |  |

| On Line Newsletter  | Township  |  |
| Social Media  | Volunteers, government class, and schools                                 |  |
| Resources/Whats Missing:  | •   |  |
| Marketing Plan  | Township government, schools, parks and recreation, fire department, etc. |  |

Item #7 – Quality neighborhoods with continuum of housing choices for residents of all ages

| What   | Who                             |  |
|--|---------------------------------|--|
| Consider razing blighted properties  | Township, Kalamazoo County      |  |
| Water and Sewer (not necessary   | Coop = Assessment;              |  |
| unless immediate need)   | Township, City, County          |  |
| Seniors/Public Transportation  | Private, County, State, Federal | is a second of the second of t |
| Quality homeownership, renters, landlords  | Entire Community                |  |
| Ordinance enforcement  | Township                        |  |
| Resources/What's Missing:  |                                 |  |
| Learned homeowner<br>skills/knowledge, understand<br>financial value and/or responsibility | Community Center                |  |
| Pride in ownership   | Retired Tradesmen               |  |
| Realize value in home—investment   | Financial Planners              |  |

Item #8 -Comstock is a choice community for business and residents because of quality public services and good reputation

| What                               | Who                      |  |
|------------------------------------|--------------------------|--|
| *Develop a positive marketing plan | *Township government and |  |
|                                    | Schools                  |  |
| *Develop a mission statement       | *Parks Dept/Fire Dept    |  |
|                                    | (together)               |  |
| Education vs Enforcement           | Fire, Township, County,  |  |

| (warnings vs Tickets)               | Building                  |  |
|-------------------------------------|---------------------------|--|
| Tax Abatement for Existing          | Township Board            |  |
| Business Growth                     |                           |  |
| Increase road patrol with millage   | Township Board, Kalamazoo |  |
| (local or county-wide) assessment   | County Sheriff            |  |
| and/or business tax \$              |                           |  |
| Diverse affordable housing: house,  | Planning Commission,      |  |
| apartment, multi-use,               | Township Board            |  |
| condominiums                        |                           |  |
| Modify zoning to allow multi-use    | Planning Commission,      |  |
| buildings (i.e. living space above  | Township Board            |  |
| business)                           |                           |  |
| Ambassadors (knowledgeable          | Township Board            |  |
| connected, i.e. Realtors)           |                           |  |
|                                     |                           |  |
| Resources/What's Missing:           |                           |  |
| *Participation at 100% at all times |                           |  |

## Item #9 – Convenient, affordable public transportation options

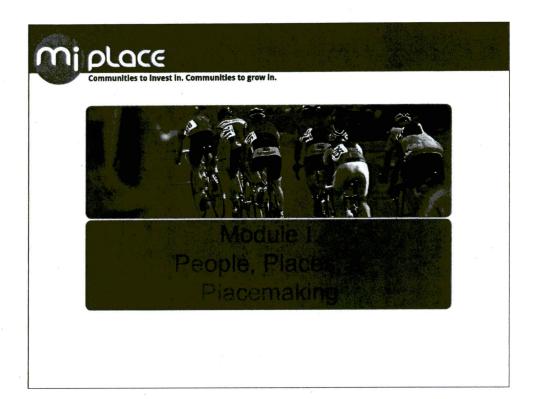

| What  | Who  |   |
|---|--|---|
| Millage Passed  | Kalamazoo County Transit<br>Authority        |   |
| Buy-in Districts?   | Municipalities In/Out                        |   |
| *More Stops, flexible scheduling  | Kalamazoo County Transit<br>Authority        |   |
| *More Busses  | Kalamazoo County Transit<br>Authority        |   |
| *Sidewalks-build, maintain snow-<br>repair-replace                          | Kalamazoo County Transit Authority           |   |
| More (Bus) shelters   | Kalamazoo County Transit<br>Authority        |   |
| Cleaners busses & better image  | KCTA, Teach ridership                        |   |
| Safety; why does it appear that only one/lower income level people use bus? | Kalamazoo County Transit<br>Authority        | * |
| Modern amenities: Wifi, power stations, TV screens                          | Kalamazoo County Transit<br>Authority        |   |
| Resources/What's Missing:   |  |   |
| \$ ? How much how many districts  | Kalamazoo County Transit<br>Authority        |   |
| Change parking standards; less parking spaces in lieu of metro stop         | KCTA, Township Board,<br>Planning Commission |   |

## **Appendix E**

**Placemaking & New Economy Presentation** 

0

1

## Four Types of Placemaking

- For the time being, the simplest definition will suffice: "<u>Placemaking</u> is the process of creating quality places that people want to live, work, play and learn in."
- Later we will define "<u>Strategic Placemaking</u>,"
   "<u>Creative Placemaking</u>," and "<u>Tactical</u>
   <u>Placemaking</u>" and explain how each differs
   from the generic "placemaking."

The New Economy refers to a global, entrepreneurial, and knowledge-based economy where business success comes increasingly from the ability to incorporate knowledge, technology, creativity, and innovation into products and services.

 Six of the 11 New Economy features depend on talent and effective placemaking.

.1.A. 45

## Comparing the Old and New Economy

| Key Features of the Old Economy   | Key Features of the New Economy  |
|---|--|
| Inexpensive place to do business was key.   | Being rich in talent and ideas is key.   |
| Attracting companies was key.   | Attracting educated people is key.   |
| A high-quality physical environment was a luxury, which stood in the way of attracting cost-conscious businesses. | Physical and cultural amenities are key in attracting knowledge workers.             |
| Success = fixed competitive advantage in some resource or skill. The labor force was skills dependent.            | Success = organizations and individuals with the ability to learn and adapt.         |
| Economic development was government-led. Large government meant good services.                                    | <b>Bold partnerships</b> with business, government and nonprofit sector lead change. |

MSU Land Policy Institute

I.1.A. 46

Comparing the Old and New Economy

| Key Features of the Old Economy  | Key Features of the New Economy   |
|--|---|
| Industrial sector (manufacturing) focus.   | Sector diversity is desired, and clustering of related sectors is targeted.                               |
| Fossil fuel dependent manufacturing.   | Communications dependent, but energy smart.   |
| People followed jobs.  | Talented, well-educated people choose location first, then look for or create a job.                      |
| Location mattered (esp. relative to transportation and raw materials).                               | Quality places with a high quality of life matter more.   |
| Dirty, ugly, and a <b>poor quality environment</b> were common outcomes that did not prevent growth. | Clean, green environment and proximity to open space and quality recreational opportunities are critical. |
| Connection to global opportunities not essential.  | Connection to emerging global opportunities is critical.  |

MSU Land Policy Institute

Communities to invest in. Communities to grow in.

## Within Each Region there must be Some High Quality Urban Places

- These could be called Regional Centers of Commerce and Culture.
  - They should be the talent magnets
  - They should be the major job and population centers
  - They should have places with the highest density and the highest level of public services
  - The largest ones should <u>include not only a central city, but</u> <u>in most cases, portions of some adjoining suburban</u> <u>townships</u>
- In addition, there would also be sub-regional centers (small towns) that are linked to the regional center

## Urbanized Areas & Urban Clusters

Density is 1,000 persons/sq. mile in the core and at least 500 persons/sq. mile in contiguous areas

## mi place

Communities to invest in. Communities to grow in.

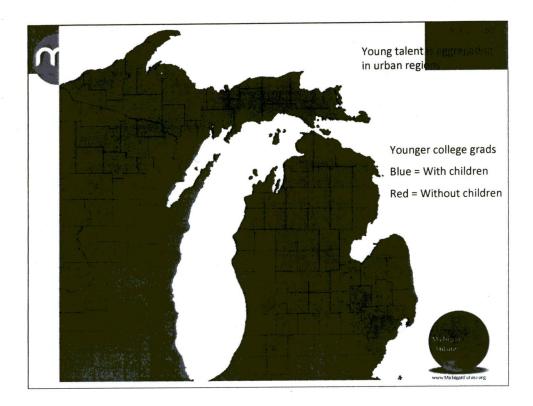

## 14 MSA's in Michigan are Centers of Commerce and Culture:

- · Detroit
- · Grand Rapids
- Lansing
- · Ann Arbor
- Flint
- Kalamazoo
- Holland
- Saginaw
- Muskegon
- Niles
- Jackson
- Monroe
- Battle Creek
- · Bay City

#### Home To:

- · 82% of the State population
- 84% of the jobs
- · 86% of the State GDP
- 85% of exports
- 91% of science and engineering jobs
- 85% of postsecondarydegree holders
- 90% of the high-tech industry employment
- 80% of advanced manufacturing jobs

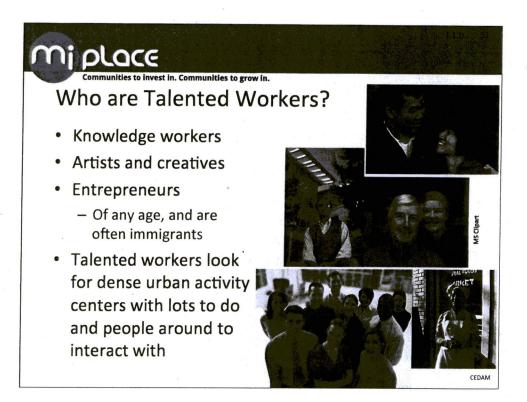

From Governor's Office of Urban & Metropolitan Initiatives

## Talented Workers are Mobile

- Perhaps Rich Karlgaard, publisher of Forbes magazine, summed it up best:
- "Start with this proposition: The most valuable natural resource in the 21st century is brains.
   Smart people tend to be mobile. Watch where they go! Because where they go, robust economic activity will follow."

## What are Talented People Looking for?

- · Quality Places to Live, Work & Play!
- Active/dynamic living environment with lots of fun:
  - Entertainment, recreation, cultural amenities, social interaction, and diverse cultural and ethnic experiences.
- <u>Amenities driven</u>: parks, outdoors, thriving farms, sports, hunting, fishing, waterways, greenery, etc.
- Diverse lifestyle choices:
  - Multi-modal transportation (especially transit), housing type and range of prices, density range.
- Business and entrepreneurial opportunities:
  - Creativity, risk taking, good market for innovation, high wage jobs.

## Nearly Everywhere is a Place

- A parking lot is a place, as is a main street or a house or a residential subdivision or a park.
- Our concern is with places that people care
   about and want to be in. That is because
   those places have a strong sense of place.
   Most people feel that way about their homes.
- We will refer to places with a strong sense of place as Quality Places.

## Attributes of a Quality Place

- People (and businesses) want to be there
- Active, unique locations, interesting, visually attractive, often with public art
- · Common attributes:
  - people friendly and safe
  - walkable with mixed uses
  - good building mass and facades
  - alluring with pizzazz
  - green features

## **Elements of Quality Places**

- Mixed-uses
- Quality public spaces
- Broadband enabled
- Multiple transportation options
- Multiple housing options
- Preservation of historic structures
- Community heritage
- Arts, culture and creativity
- Recreation
- Green places
- · Linked regionally to rural and natural places

nmunities to invest in. Communities to grow in.

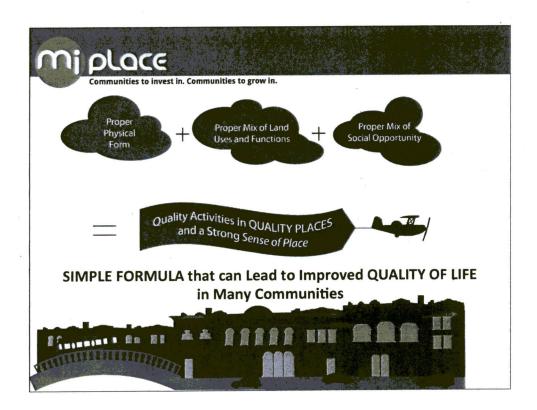

## **Characteristics of Quality Places**

- Quality Places have characteristics that are the result of good FORM:
  - Mass, density and scale appropriate to place on transect
  - Human scale designed for people
  - Walkable pedestrian oriented; and bikable
  - Safe
  - Connected
  - Welcoming
  - Encourages activity- stumbling into fun

## **Characteristics of Quality Places**

- Good FORM characteristics:
  - Allows authentic experiences
  - Accessible ability to easily circulate within, along and between public places
  - Comfort perceptions about cleanliness, character and charm
  - Quiet, unless they are designed to be otherwise
  - Sociability have a physical fabric where people can connect with one another
  - Civic engagement they promote and facilitate
  - Resilient and sustainable

C

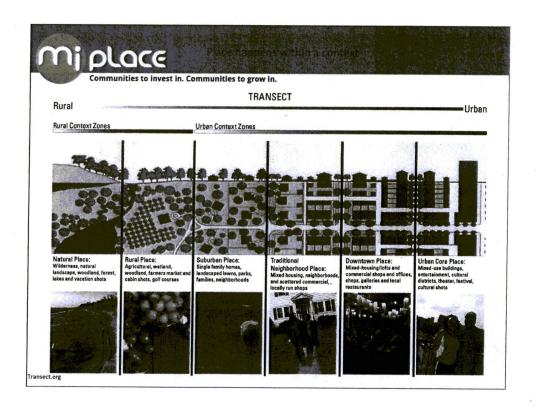

## Analogy on Sense of Place

Michiganopera.org, Detroit Opera House

- Form creates the Stage
- Activity is the Play
- Response is how you Feel about the play
- Economic if good, the play makes Money (and so will businesses nearby)

page 42

## Creating, or Recreating, Places with a Strong Sense of Place

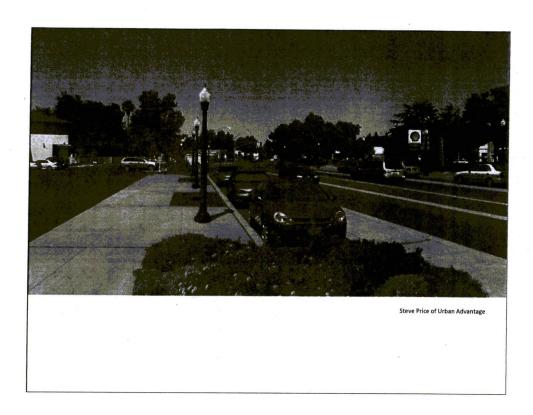

- · Placemaking is about creating or transforming places that people cannot wait to leave to ones they don't want to leave.
- · That goes for not only our older central cities, and many small towns, but our suburbs as well.

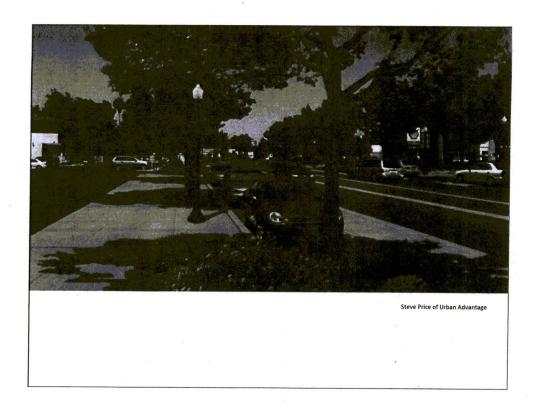

Happy people is the result of effective Placemaking!

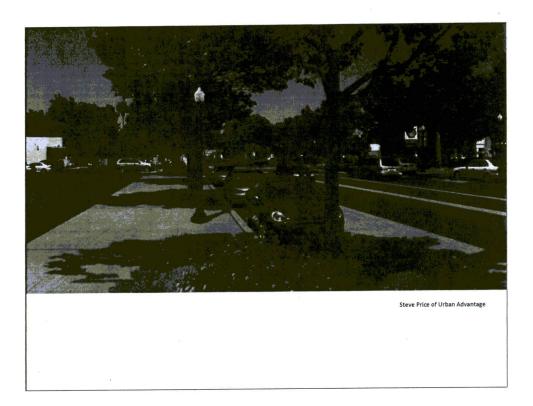

Steve Price of Urban Advantage

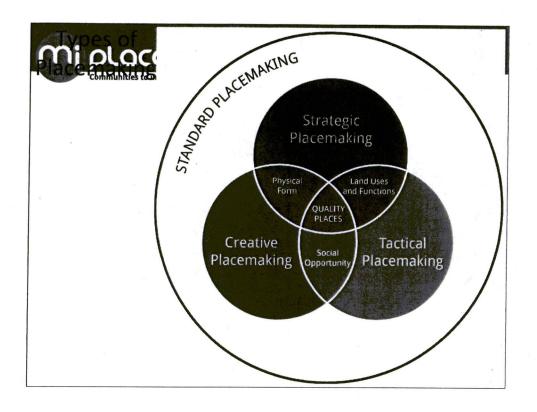

page 42

## Simple Definition of "Standard" Placemaking

- Placemaking is the <u>process</u> of creating Quality Places that people want to live, work, play and learn in.
  - That requires engaging and empowering people to participate in the process.
  - This embraces a wide range of projects and activities and is pursued by the public, non-profit and private sectors on a piecemeal basis, <u>over a</u> <u>long period of time – potentially, forever.</u>

page 42

Communities to invest in. Communities to grow in.

## **Placemaking Examples**

- Examples include:
  - Projects downtown street and façade improvements, neighborhood-based projects such as residential rehabs, residential infill, small scale multi-use projects, park improvements, etc.
  - Activities events in public places

Residential Infill - Bay City, MI

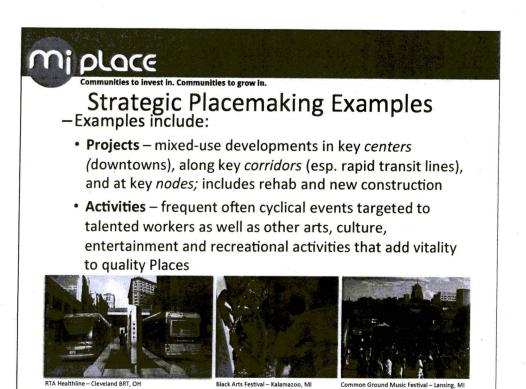

Residential Infill - North End, Detroit , MI

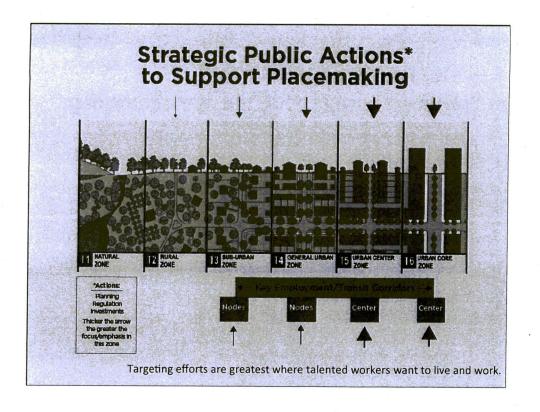

Lighter, Quicker, Cheaper - Washington, DC

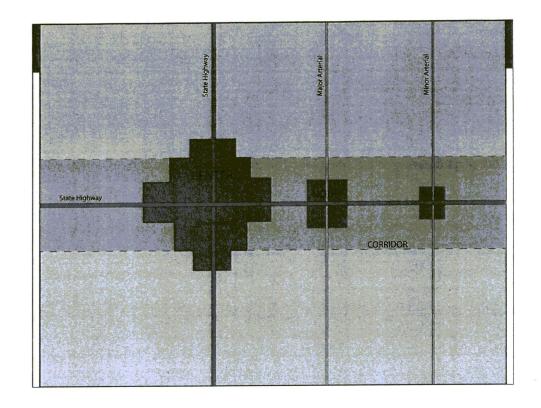

## Miplace Communities to invest in. Commun

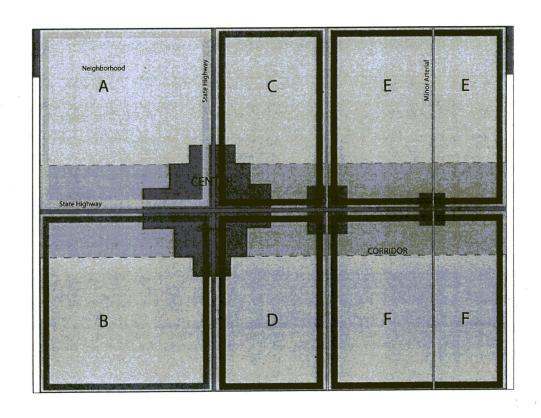

## More Targeted Definition of Placemaking

- Strategic Placemaking is targeted to achieving a particular goal in addition to creating Quality Places.
- It aims to create Places that are <u>uniquely attractive to</u>
   <u>talented workers</u> so that they want to be there and live
   there, and by so doing, they create the circumstances
   for substantial job creation and income growth.
  - This embraces a wide range of projects and activities and would be pursued by the public, non-profit and private sectors on a targeted basis over at least 10 - 15 years.

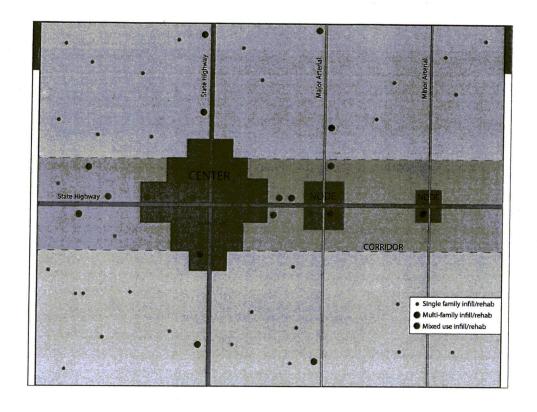

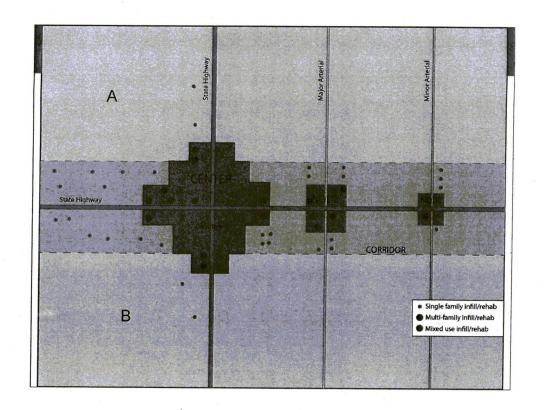

17

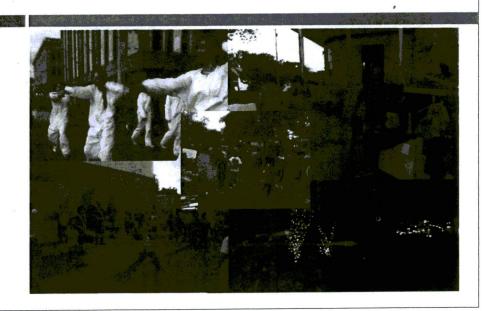

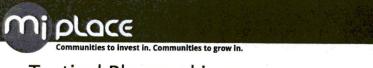

# Creative Placemaking

- "In creative placemaking, partners from public, private, non-profit, and community sectors strategically shape the physical and social character of a neighborhood, town, city, or region around arts and cultural activities.
- Creative placemaking animates public and private spaces, rejuvenates structures and streetscapes, improves local business viability and public safety, and brings diverse people together to celebrate, inspire, and be inspired."

#### FLINT PUBLIC ART PROJECT

### **Tactical Placemaking**

Two different approaches come together to create Tactical Placemaking:

 "Tactical Urbanism," from two books of the same name (Tactical Urbanism: Short-term action, Long-Term change, Vols 1 and 2), by the Streets Plan Collaborative. www.streetplans.org.

 "Lighter, Quicker, Cheaper" -- name given to set of activities by Project for Public Spaces. www.pps.org.

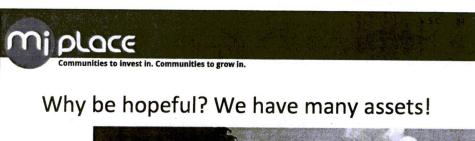

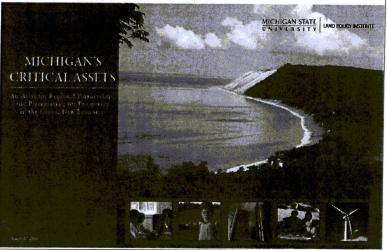

# **Businesses Locate Regionally**

- Businesses look at economic regions before choosing a site.
- Most important variable is a trained workforce.
- Concerned with all major transportation infrastructure.
- For their workers, they look for a wide range of housing and transportation choices.
- This requires high Quality Places across the metropolitan area, not just at the place of business.

- <u>Strategic assets</u> are: people, natural, environmental, community, and quality of life related resources that can provide a competitive advantage.
- Comstock:
  - Population growth of 7.3% increase 2000-2010
  - River and natural areas
  - Bedding industry and new economy manufacturing
  - location

#### **Underutilized Assets**

- Universities/community colleges/private colleges.
- Companies ready for the next stage of growth.
- Huge inland water assets.
- Great Lakes water assets.
- Huge transportation assets.
- Huge agricultural and forestry assets.
- Knowledge workers.
- Renewable energy opportunities.

# **Development Trends 2030**

- 1. Conventional residential development in outer suburbs will remain troubled
- 2. Compact, TOD will be in high demand

Arthur C. Nelson (2013)

#### **Development Trends 2030**

#### Reasons for these shifts:

- · Increase in gasoline price
- · Income and wealth of median households are falling
- Unemployment will remain higher than it was during the long post war boom
- · Institutional support for home-ownership is waning

Arthur C. Nelson (2013)

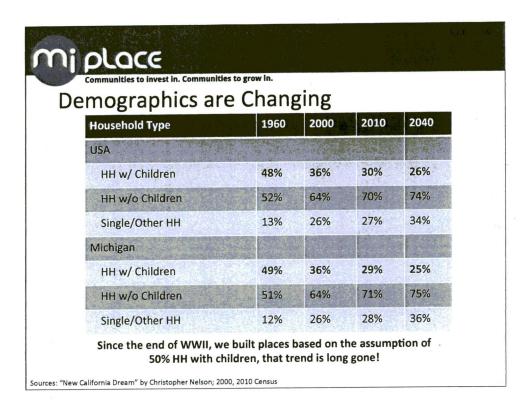

#### **Development Opportunities 2030**

Parking lots and deteriorating structures offer opportunities to meet new demands

- Already flat and well drained
- Already zoned non-residential
- Usually close to main roads/ highways
- Large-scale utilities already exist along these main transportation ways

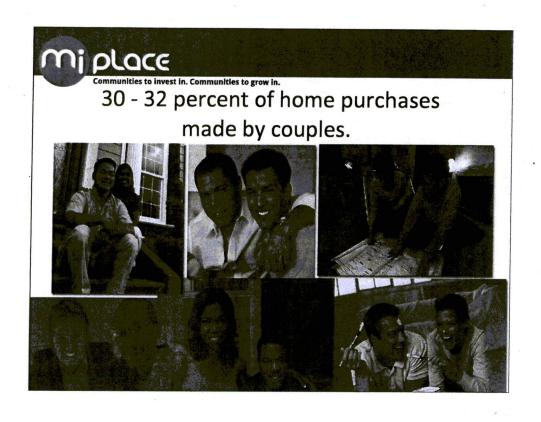

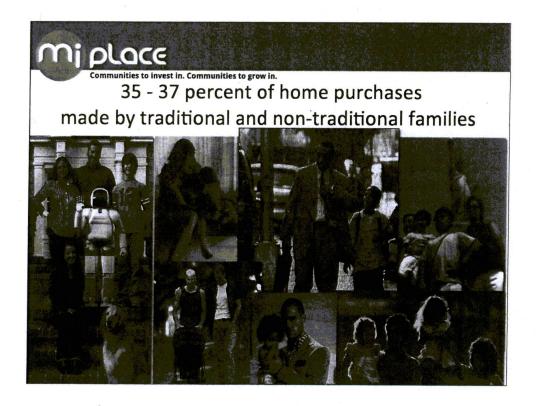

Arthur C. Nelson (2013)

## American Generations (as of 2013)

- Greatest Generation: 88+ (born before 1925)
- Silent Generation: 68-88 (born 1925-1945)
- Baby Boomers: 47-67 (born 1946-1965)
- Generation X: 33-47 (born 1966-1980)
- Millennials: 13-32 (born 1981-2000)
- Generation Z: less than 13 (born after 2000)
- The Millennial Generation was the largest generation in the USA in 2010, and by 2012 it was in Michigan as well. It is NO LONGER THE BOOMERS!
- · 88% of the Millennials want to live in urban neighborhoods.

| 1.00      | Total Population | 14854 |
|-----------|------------------|-------|
| Age Group | Number           | %     |
| 0 – 19    | 3989             | 27%   |
| 20 - 24   | 871              | 6%    |
| 25-39     | 2895             | 19%   |
| 40-64     | 5229             | 35%   |
| 65-74     | 1080             | 7%    |
| 74+       | 889              | 6%    |

Communities to invest in. Communities to grow in.

### Market Preferences are Changing

- What Millennials and many Gen X'ers want is not what younger Boomers wanted.
- Millenials grew up in the suburbs, they want a denser urban environment with more choices.
- They don't drive as much and far fewer even have driving licenses.
- They like mass transit, they ride bikes a lot and want green space, entertainment and amenities in abundance and close by.

Communities to invest in. Communities to grow in.

# 2011 American Community Preference Survey

- Public preferences:
  - 47% prefer to live in a city or a suburban neighborhood with a mix of houses, shops, and businesses.
  - 88% say <u>neighborhood</u> is a bigger consideration than house size, and
  - Public schools, sidewalks, or places to take walks are top community characteristics wanted.

Belden, Russonello & Stewart, LLC. The 2011 Community Preference Survey: What Americans are looking for when deciding where to live, commissioned by the National Association of Realtors, March, 2011.

# Communities to invest in. Communities to grow in.

### Shift to Attached Residential Housing

- · Homeownership is declining and will continue to decline.
- When those aged 65 and older move, 80 % vacate single-family houses, but only 41 % move into single-family units while the rest --59 % -- move into multi-family buildings.
- Because the largest age cohort is Baby Boomers and they are just reaching this age, the impact will be huge over the next 20 years.

Steuteville, Robert. "The Coming Housing Calamity."

#### **Great Senior Sell-Off**

- Research shows that when people reach 65 years old they sell their houses at a higher rate than purchase
  - The first baby boomers turned 65 in 2011
- 1.5 to 2 million senior-owned homes will be on the market by 2020

When seniors move, nearly 60% move into rentals!

Arthur C. Nelson (2013)

#### Great Senior Sell-Off cont'd

- Between 2020 and 2030 there will be a net surplus of 4 million homes on the market that cannot sell
- 2/3 of new housing demand between 2010 and 2030 will be for rental housing
- There will be a surge in construction of apartments for more affluent renters

Arthur C. Nelson (2013)

#### Comstock Households 2010

| Total Household                   | 6059 |       |

Building Better Budgets: A National Examination of the Fiscal Benefits of Smart Growth Development

- Surveys 17 studies that compare different development scenarios.
- By Smart Growth America, 2013
- Three key findings

# 1. In General, Smart Growth Development Costs One-third Less For Upfront Infrastructure.

The survey concluded that Smart Growth development saves an average of 38 percent on upfront costs for new construction of roads, sewers, water lines and other infrastructure. Many studies have concluded that this number is as high as 50 percent.

2. Smart Growth Development Saves An Average Of 10 Percent On Ongoing Delivery Of Services.

The survey concluded that Smart Growth development saves municipalities an average of 10 percent on police, ambulance and fire service costs.

# 3. Smart Growth Development Generates 10 Times More Tax Revenue Per Acre Than Conventional Suburban Development.

The survey concluded that, on an average per-acre basis, Smart Growth development produces 10 times more tax revenue than conventional suburban development.

### Impacts of Placemaking on Property Values

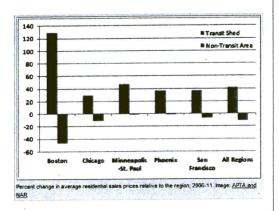

- In many instances, the sale price of a home was positively influenced by the presence of nearby placemaking amenities.
- In Lansing, homes that sold close to downtown Lansing, Michigan State University, or near a river or a lake sold for more than homes located farther away from these amenities.
- In Royal Oak, property values benefited from being around a number of businesses, especially restaurants.

Source: Land Policy Institute, 2012

# Homes near Transit and the Recession

Homes near transit stations outperformed the region as a whole by an average of 41.6% during the Recession.

# Communities to invest in. Communities to grow in.

#### Research Supports Walkability

- Professor Chris Leinberger (then from the University of Michigan and Brookings Institution) pointed out at the 2010 MSU Land Policy Institute Annual Summit that:
  - Market wants higher density, walkable, urban development. Shift is happening from suburban to urban. We built too much in the suburbs, now a pent up demand for walkable urbanism. Very difficult to produce (due to local regulations) in a lot of places.

Source: Leinberger, 2010

unities to invest in. Communities to grow in.

## Research Supports Walkability (continued)

- What was perceived as the niche market is now THE market. Walkable urban development will be driver of 35% of our economy for the next generation.
- There will be a shift out of auto-based transportation to more walking, biking and transit use.
- We need to focus on regionalism and where walkable places in the region will be.

Communities to invest in. Communities to grow in.

#### Walkscore

- Research on Walkscore.com; each point in walk score increase (i.e. more access to more amenities) estimates \$700 to \$3,000 in value increase to homes.
- Need at least 4-6 very walkable places in every metro area.
- Suburban and urban walkable developments will be different.

#### Kalamazoo

- 49007 = 52

- Comstock
  - 49041 = 25 out of 100
  - 49048 = 6 out of 100
  - 49054 = 0

Sources: Walkscore.com

VIS Clipart

munities to invest in. Communities to grow in.

#### Health & Safety

- We are a state in a nation with growing obesity with huge public health risks.
- Many studies have documented the relationship between health and walking or bicycle riding.
- Studies are now showing that compact settlement patterns often result in healthier residents and schoolchildren, largely because of the increase in walking and biking.

#### Zoning to Reduce Crime

Researchers looked at the relationship between zoning changes and crime rates in Los Angeles

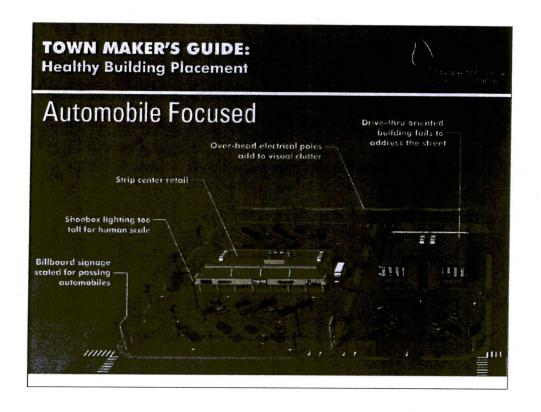

- Exclusively residential areas had least crime,
- Mixed-use blocks had less crime than exclusively zoned commercial blocks

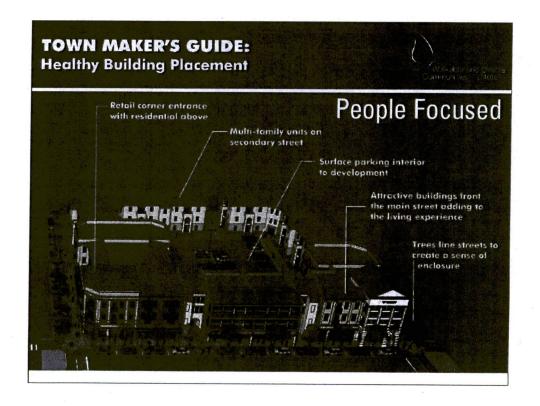

Lansing, MM

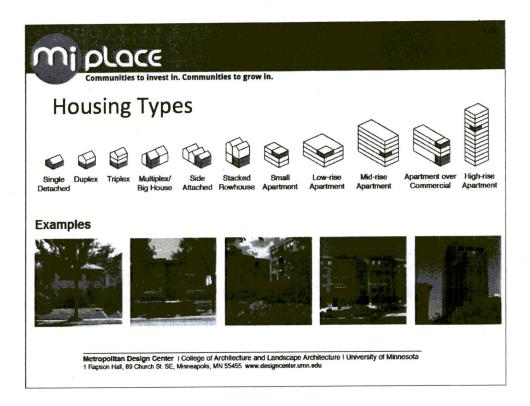

- Places that introduce residential zoning in commercial areas likely to decrease crime
- Eyes on the street effect (transparency)

Perceived Performance

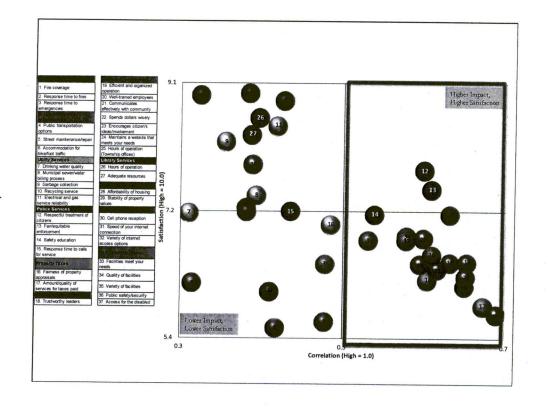

Higher scoring areas that do not currently have a large impact on engagement relative to the other areas.

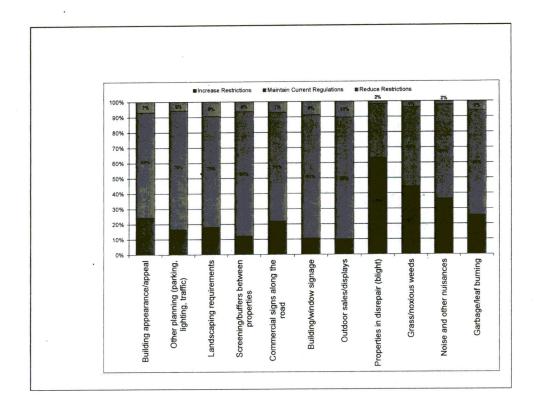

Action: May show over investment or under communication.

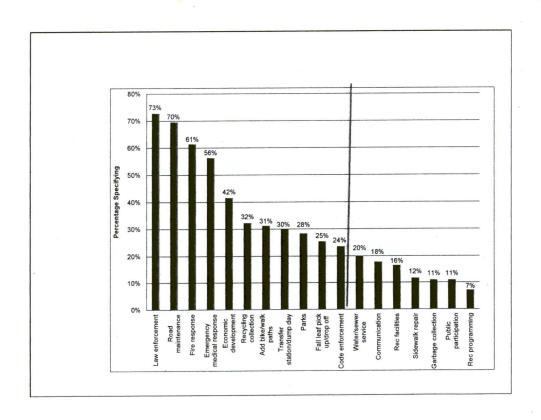

Higher impact areas where the organization received high scores from citizens. They have a higher impact on engagement if improved.
Action: Continue investment

Lower scoring areas relative to the other areas with lower impact on engagement. Action: Limit investment unless pressing safety or regulatory consideration. Higher impact on engagement and a relatively lower score. Action: Prioritize investment to drive positive changes in outcomes.

#### **Top Themes:**

- 1. Parks- improve access, options, confusion over free/paid
- 2. Taxes— too high, better usage of funds
- 3. Roads—improve maintenance, more resurfacing

#### Fire & EMS

- 1. Fire coverage
- 2. Response time to fires
- Response time to emergencies

### Transporatation Infrastructure

- Public transportation options
- 5. Street maintenance/repair
- Accommodation for bike/foot traffic

#### **Utility Services**

- 7. Drinking water quality
- 8. Municipal sewer/water billing process
- 9. Garbage collection
- 10. Recycling service
- 11. Electrical and gas service reliability

#### **Police Services**

- 12. Respectful treatment of citizens
- 13. Fair/equitable enforcement
- 14. Safety education
- 15. Response time to calls for service

#### **Property Taxes**

- 16. Fairness of property appraisals
- 17. Amount/quality of services for taxes paid

#### **Township Government**

18. Trustworthy leaders

#### **Township Government**

- 19. Efficient and organized operation
- 20. Well-trained employees
- 21. Communicates effectively with community
- 22. Spends dollars wisely
- 23. Encourages citizen's ideas/involvement
- 24. Maintains a website that meets your needs
- 25. Hours of operation (Township offices)

#### **Library Services**

- 26. Hours of operation
- 27. Adequate resources

#### **Economic Health**

- 28. Affordability of housing
- 29. Stability of property values

#### **Telecommunications**

- 30. Cell phone reception
- 31. Speed of your internet conneciton
- 32. Variety of internet access options

#### Parks and Recreation

- 33. Facilities meet your needs
- 34. Quality of facilities
- 35. Variety of facilities
- 36. Public safety/security
- 37. Access for the disabled

  - What needs improvement
  - Trends
  - Asset identification
  - Placemaking

### Comstock 2024

- Development of a Downtown Comstock: multi-use (commercial, residential, office) between the bridge and Comstock Ave and Kings Hwy
- River trail complete, recreation on Morrow Lake
- High quality roads with bike and pedestrian paths
- · Sewer and water throughout township
- Funds available for capital infrastructure (roads, water, sewer, water, buildings, public safety, parks)maintenance and improvements
- Collaborative efforts between schools, government and private interests working to ensure lifelong learning goals
- Quality neighborhoods with continuum of housing choices for residents of all ages
- Comstock is a choice community for business and residents
- · Convenient, affordable public transportation options
